

## Special Issue

# Prevention, Diagnosis and Treatment of Oral Mucosal Diseases

### Message from the Guest Editor

Oral mucosal diseases are closely related to oral and systemic health and are of increasing importance in medical practice, including cancer treatment. This Special Issue provides the latest findings on the prevention, diagnosis and treatment of a diverse range of conditions, including infections of the oral mucosa, precancerous lesions, oral mucositis and oral cancer. Through research papers and review articles by experts in their fields, the early detection, diagnosis, treatment and effective management of oral mucosal lesions are explored. It also focuses on the importance of oral care in patients with cancer and other diseases and the challenges faced in clinical practice and provides practical guidelines for oral mucosal management.

### Guest Editor

Dr. Masanobu Abe

Department of Oral Surgery & Dentistry, The Cancer Institute Hospital of Japanese Foundation for Cancer Research, Tokyo 135-8550, Japan

### Deadline for manuscript submissions

25 January 2026

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
