

Special Issue

Respiratory Support in ICU: The COVID-19 Lessons

Message from the Guest Editor

This Special Issue will focus on the management of respiratory diseases in critical care patients based on what we learned from SARS COV 2. From a clinical point of view, we did learn a lot of lessons about many clinical issues such as non-invasive respiratory support, invasive ventilation, prone positioning, aerosol-generating procedures, shared ventilation, issues related to oxygen therapy, silent hypoxemia, ventilator shortages, and long COVID. This Special Issue aims to discuss new strategies of respiratory support, including the integrated metabolic and cardiovascular support. We are looking for original articles and reviews dealing with novelty in respiratory strategies approaches changed during the last three years.

Guest Editor

Dr. Paolo Formenti

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi
