

## Special Issue

# Clinical Perspectives on Surgical Management of Knee Injuries

### Message from the Guest Editor

Knee injuries, including osteoarthritis, meniscal tears, ligament damage, and cartilage degeneration, present significant challenges in orthopedic care. These conditions impact millions of patients worldwide, leading to pain, reduced mobility, and decreased quality of life. Surgical management remains a cornerstone in addressing these issues, with ongoing advancements in techniques and technologies enhancing outcomes. This Special Issue will focus on the latest clinical perspectives and innovations in surgical treatments for knee injuries. We invite submissions that explore cutting-edge approaches and comprehensive evaluations of patient outcomes. Your contributions will provide valuable insights into optimizing surgical care and advancing the field of knee surgery.

## About the Journal

### Message from the Editorial Board

*Journal of Clinical Medicine* (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.
