

Special Issue

Atrial Fibrillation: Past, Present and Future

Message from the Guest Editor

The *Journal of Clinical Medicine* is publishing a Special Issue entitled "Atrial Fibrillation: Past, Present, Future". I am serving as the for this Issue. Atrial fibrillation is a common cardiac arrhythmia characterized by irregular and often rapid heartbeats originating from the atria. It is associated with an increased risk of stroke, heart failure, and mortality. AF is a significant clinical concern due to its associated morbidity and mortality, and its prevalence is expected to increase as the population ages. Atrial fibrillation constitutes wide range of clinical problems including atrial fibrillation prevention, diagnosis, and management. In this Special Issue, we invite researchers to submit high-quality original papers on new insights into all these topics—the prevalence, pathophysiology, diagnosis, monitoring, risk prediction, prophylaxis, and treatment options of AF. I think that you could make an excellent contribution based on your expertise in this field. The submission deadline is 31 March 2024. I am looking forward to hearing from you.

Guest Editor

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
