Advances in Clinical Approaches to Breast Cancer Diagnosis and Treatment

Message from the Guest Editor

Breast cancer remains one of the most prevalent and complex malignancies worldwide, demanding continuous advancements in both diagnostic and therapeutic strategies to improve patient outcomes. Recent breakthroughs in precision medicine, minimally invasive surgical techniques, targeted therapies, and innovative imaging modalities are reshaping the clinical management of breast cancer, allowing for more accurate detection, personalized treatment plans, and enhanced survivorship. This Special Issue will showcase the latest research and clinical innovations in breast cancer diagnosis and treatment, covering topics such as molecular and genetic profiling, artificial intelligence in imaging, novel systemic and immunotherapies, advancements in breast-conserving surgery, and strategies to mitigate treatment-related side effects. By bringing together leading experts and cutting-edge studies, this collection will provide a comprehensive overview of the evolving landscape of breast cancer care, ultimately guiding future research and improving the quality of life for patients worldwide.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
