Management and Challenges in Gynecological Cancer

Message from the Guest Editors

As you most likely already know, gynaecological cancer treatment is developing globally. Researchers are examining the efficacy of new surgical and non-surgical methods for maintaining fertility in women with gynecological malignancies. Nerve preservation is now a standard part of cervical cancer surgery. The genetic subtyping of endometrial cancer provides the basis for a unique treatment method. Without a question, research into the biology of ovarian cancer has enhanced our understanding of the illness and our capacity to treat it. Defeating the specific challenges presented by gynaecological cancer would almost certainly boost cancer patients' chances of survival. Medical experts are urged to support articles that give in-depth evaluations of gynaecological cancer management challenges and advances, as well as recent research achievements in the area, for this Special Issue.

Guest Editors

Dr. Ahmad Sayasneh

1. Associate Professor, Department of Gynaecological Oncology, Guy's and St Thomas' NHS Foundation Trust, Westminster Bridge Road, London SE1 7EH, UK
2. Faculty of Life Sciences & Medicine at Guy's, The School of Life Course Sciences, King's College London, London WC2R 2LS, UK

Prof. Dr. Zelal M. Muallem

1. Department of Gynecology with Center for Oncological Surgery, Charité Universitätsmedizin Berlin, Corporate Member of Freie Universität Berlin, Humboldt-Universität zu Berlin, Berlin, Germany
2. Berlin Institute of Health, Virchow Campus Clinic, Charité Medical University, Berlin, Germany

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
