Current Advances in Optimal Medical Therapy for Heart Failure

Message from the Guest Editor

We are currently in the era of the heart failure pandemic. The number of heart failures is increasing and the severity of heart failure is advancing. However, novel medications have been introduced, including the “fantastic four”. Nevertheless, therapeutic strategies regarding how to appropriately use these medications in real-world clinical practice remain unestablished. We often encounter elderly heart failure patients with multiple comorbidities. Large-scale randomized control trials do not necessarily provide us with appropriate answers regarding how to manage such patients. Now is the time to establish therapeutic strategies using novel medications to treat heart failure patients in real-world clinical practice. All original articles or systemic reviews on this topic related to current advances in heart disease are welcome and highly encouraged for submission.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
