

## Special Issue

# New Advances in the Management of Voice Disorders

### Message from the Guest Editor

In order to optimize medical-therapeutic action, it is necessary to be regularly informed about the selection of appropriate treatment options for voice disorders based on new research evidence from, for example, clinical trials, systematic reviews, and meta-analyses, in order to pursue better clinical reasoning and treatment success.

This Special Issue on voice disorders focuses on studies aiming to improve voice assessments and management from the perspective of otolaryngologists or speech-language pathologists. This issue also welcomes the submission of newly developed measures in the assessment of voice disorders. This includes, but is not limited to, studies investigating screening tools and methods for assessing voice production such as visual analysis, auditory-perceptual judgment, aerodynamic analysis, acoustic analysis, and self-assessment. Furthermore, clinical interventions with high levels of evidence in voice therapy, phonosurgery, and/or pharmacological therapy in voice disorders are of great interest.

This issue will provide an overview of new frontiers in voice disorders.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
