Special Issue

Recent Advances in the Diagnosis and Treatment of Cardiomyopathy

Message from the Guest Editor

This special issue focuses on the latest advances in the diagnosis and treatment of cardiomyopathy, a complex and potentially life-threatening heart disorder. Cardiomyopathy is characterized by structural and functional abnormalities of the heart muscle, leading to impaired heart function. This collection of articles presents cutting-edge research and provides clinical insights into the diagnosis and management of various types of cardiomyopathy. The articles explore innovative diagnostic techniques, such as advanced imaging modalities and biomarker analysis, which have revolutionized the early detection and risk stratification of cardiomyopathy. Furthermore, novel therapeutic approaches are discussed, including targeted pharmacological therapies and regenerative medicine, offering new hope for patients with cardiomyopathy. The articles provide a comprehensive overview of the recent breakthroughs in the field of cardiomyopathy, promoting early diagnosis and personalized treatment strategies. We anticipate that these advancements will contribute significantly to improving patient outcomes and ultimately reducing the burden of this debilitating condition.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine*'s (*JCM*) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000 Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
