Advances in the Diagnosis and Treatment of Venous Thromboembolism

Message from the Guest Editor

Venous thromboembolism (VTE), including deep vein thrombosis and pulmonary embolism (PE), is a commonly diagnosed condition with significant morbidity and mortality. In particular, PE is a life-threatening VTE manifestation, and it is of outstanding importance to establish the diagnosis in a timely manner. Nevertheless, the clinical presentation of acute PE patients comprises a wide spectrum, from asymptomatic patients to unspecific as well as typical symptoms, and it can be challenging to quickly establish the correct diagnosis. Additionally, a risk stratification of these patients is crucial to identify those who will benefit from more aggressive treatment strategies. These challenging aspects regarding VTE diagnosis, risk stratification and treatment, in light of medical progress, should be the aims of this Special Issue. Beyond specialists from cardiology and vascular medicine, researchers with a focus on imaging, inflammation or other affiliated disciplines are also invited to submit original articles or reviews to enhance the knowledge in VTE research.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
