

## Special Issue

# Abdominal Aortic Aneurysm: Clinical Updates and Perspectives

### Message from the Guest Editors

Dear colleagues, Abdominal aortic aneurysm (AAA) is an important disease causing high morbidity and mortality rates worldwide. There has been continuous research during the past decade to investigate the pathophysiology, i.e., factors that may influence the natural progression of the disease as well as several clinical aspects of AAA treatment. Endovascular aneurysm repair (EVAR) has revolutionised AAA treatment in recent decades, offering excellent early and good mid-term outcomes, although durability in the long term still remains doubtful. This Special Issue aims to provide an update of research on new clinical data and perspectives on the whole area of AAA management, including perceptions of new technologies and novel devices. Accordingly, this Special Issue will try to provide a forum for high-quality original research and review articles to showcase the most recent advances in AAA management and treatment.

---

## About the Journal

### Message from the Editorial Board

*Journal of Clinical Medicine* (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
