

Special Issue

Novel Drug Targets for Cancer Management

Message from the Guest Editors

Cancer remains a leading cause of death worldwide, making the investigation of novel drug targets for cancer management essential. Finding new agents to treat cancer can be a long and expensive task. The repurposing of existing drugs that display anti-cancer properties can expedite this process and result in significant cost savings. The aim of this Special Issue is to present a collection of reviews and original contributions on the currently available evidence on novel drug targets and the cytotoxic and anti-cancer properties of novel or repurposed agents, the mechanisms behind these properties, and how these novel approaches might fit within current cancer therapies. Furthermore, this Special Issue aims to gather together the available evidence that illustrates the clinical potential of these novel approaches.

Guest Editors

Prof. Shailendra Anoopkumar-Dukie

School of Pharmacy and Medical Sciences, Griffith University, Gold Coast, QLD 4215, Australia

Dr. Catherine McDermott

Faculty of Health Sciences & Medicine, Bond University, Robina, QLD, Australia

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
