Current Advances and Future Directions for Antithrombotic Treatment Strategies

Message from the Collection Editor

This special issue aims to collect original contributions, literature reviews (including systematic reviews and meta-analysis), viewpoints, or any other kind of contribution related to the present and future development of antithrombotic strategies in the broad field of cardiovascular diseases. Submission with a particular focus on an innovative and comprehensive approach to the topic, or current unmet needs in antithrombotic strategies, are particularly encouraged.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
