New Updates Frontiers in Aortic Valve Disease

Message from the Guest Editor

It's well-known that the management of valve diseases is one of the most exciting fields in contemporary cardiology. However, many questions remain on how to prevent or slow the progression of the disease, the role of medical treatment, the identification of new indications, the patient morphological selection, or how to integrate all the available therapies in the patient's lifelong management.

In this Special Issue, we will host high-quality original research exploring new frontiers in aortic valve disease, but also the most up-to-date reviews addressing the current state-of-the-art of this field.

aortic valve stenosis
aortic valve insufficiency
structural heart interventions
transcatheter valve therapy
transcatheter aortic valve replacement
cardiac surgery
imaging in structural heart interventions
conduction disturbances
cerebral ischemic protection
innovation
long-term outcomes
novel approaches to treat cardiovascular diseases

Guest Editor

Dr. Flavien Vincent

CHU Lille, Institut Coeur Poumon, Cardiology, Department of Interventional Cardiology for Coronary, Valves and Structural Heart Diseases, Inserm, U1011, Institut Pasteur de Lille, EGID, Université de Lille, Lille, France

About the Journal

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
