Current Challenges and Advances in Atherosclerosis

Message from the Guest Editor

Atherosclerosis is a phenomenon that is of major interest in both basic science and clinical medicine in order to achieve healthy longevity worldwide. Atherosclerosis generally develops without any signs and symptoms, eventually resulting in various kinds of catastrophic cardiovascular events, such as ischemic heart disease, ischemic stroke, and rupture of major vessel aneurysm. Scientists working on the biological aspects of atherosclerosis have recently focused on the inflammation seen in vessel walls from intimal to adventitial tissues. However, although inflammation is indeed a dominant pathological phenomenon in atherosclerosis, it has been recognized that there is no simple answer to the question of whether inflammation promotes or retards atherosclerosis. This Special Issue, titled “Current Challenges and Advances in Atherosclerosis”, will focus on recent challenges and advances in the field of atherosclerosis by global expert scientists and clinicians to elucidate the complicated features of atherosclerosis and translational attempts for medical–clinical frontiers.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
