

## Special Issue

# Oncological Orthopedics: An Overview on Management on Bone Tumors and Bone Metastases

### Message from the Guest Editors

Oncological orthopedics deals with a wide spectrum of pathologies, ranging from rare diseases such as primary tumors to bone metastases, where the skeleton is the third site of secondary lesions after lung and liver. It is intriguing that primary and metastatic bone tumors share some inter-related features in terms of management and approach. First, advances in anticancer therapies and translational research in recent decades have led to a marked prolongation of survival in patients suffering from musculoskeletal cancer. Second, diagnosis, staging, and management of all skeletal tumors benefit from a multidisciplinary team approach in reference centers with a high level of expertise and within reference networks. Finally, in the modern era of limb-salvage and mini-invasive surgery, the innovation of surgical techniques and the optimization of adjuvant radiotherapy and chemotherapy regimens have allowed targeted personalized treatment pathways. The aim of this Special Issue is to provide an updated overview focusing on some emerging topics whose integration is essential for a correct and effective management of bone tumors and metastases.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
