

## Special Issue

# Hypothyroidism: Causes, Effects and Current Treatments

### Message from the Guest Editors

The main objective of the Research Topic: “Hypothyroidism: Causes, Effects and Current Treatments”, is to provide an update on the most important topic of thyroid pathology at any age, with particular attention to the innovations in the field of etiopathogenesis, diagnosis and treatment of congenital and acquired hypothyroidism, autoimmune thyroid pathology, subclinical hypothyroidism. Also the experiences expect the peculiarity of thyroid pathology in chronic and genetic diseases. We are also interested in topic of other comorbidities in the condition of hypothyroidism.

Furthermore, another focal point is to carry out a comparison between researchers and clinicians with the aim of transferring the most recent innovations into daily practice, adopting shared lines of behavior, and thus strengthening the integration between pediatric and adult endocrinologists.

Two types of Papers, as expected for Journal of Clinical Medicine, can be sent : Original Research and Systematic Review.

## About the Journal

### Message from the Editorial Board

*Journal of Clinical Medicine* (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.
