Chronic Pain: Clinical Updates and Perspectives

Message from the Guest Editors

Chronic pain exerts a serious health burden on industrialized societies, being one of the leading causes of disability. Due to its high prevalence, morbidity, and comorbidity with different psychological problems, especially anxiety, depression, insomnia and cognitive disorders, chronic pain is considered one of the diseases that consumes a great deal of health resources. Unfortunately, to date there is no therapy with proven effectiveness for the management of chronic pain. As a consequence, different international resolutions have declared adequate pain therapy as a human right. The scope of this Special Issue is to deepen the diagnosis, treatment, prevention and management of chronic pain in its different spheres, and to deepen and update our knowledge of the investigations that are being conducted in this field, paying special attention to the experiences of people who suffer from chronic pain. Researchers in the field of chronic pain are encouraged to submit an original research or review article to this Special Issue that can provide useful insights into the clinical updates and perspectives directed to the management of chronic pain.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
