

## Special Issue

# Novel Insight into the Diagnosis and Management of Crohn's Disease

### Message from the Guest Editor

In recent years, huge progress has been made in both the diagnosis and monitoring of Crohn's disease. Non-invasive, and remote monitoring techniques such as capsule endoscopy, intestinal ultrasound, and fecal calprotectin are gaining increased acceptance, replacing more traditional and invasive monitoring techniques. Novel and more ambitious treatment goals such as transmural healing and histological healing are being evaluated in clinical trials and observational studies. The therapeutic armamentarium in IBD has been rapidly expanding in the last decade. In addition to monoclonal antibodies targeting novel mechanisms, biosimilar therapies are changing the biological therapy market, causing significant cost reductions for well-established molecules. In addition, there is increasing evidence to support subcutaneous use of previously IV-only medications, this trend being particularly important during the COVID-19 era. The current Special Issue will focus on novel diagnostic and therapeutic strategies in CD, including but not limited to novel biomarkers, remote monitoring of disease activity, novel drug combinations, and therapeutic targets.

### Guest Editor

Prof. Dr. Uri Kopylov

Department of Gastroenterology, Sheba Medical Center, Ramat Gan, Israel

### Deadline for manuscript submissions

closed (31 December 2021)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
