

## Special Issue

# Cryptococcal Meningitis in Africa: Burden, Prevention, and Treatment

### Message from the Guest Editor

There remains a substantial burden of cryptococcal meningitis associated mortality in sub Saharan Africa, more than a decade after improved access to antiretroviral therapy and several years after guidelines on universal HIV test-and-treat were introduced. In this Special Issue of the *Journal of Clinical Medicine*, we will address why mortality remains high and how it could be reduced in sub Saharan Africa. We particularly welcome articles providing new insights into (i) the causes of mortality or (ii) recent developments in screening for cryptococcal antigen and pre-emptive treatment, and (iii) articles that provide new clinical or health system data related to the prevention and management of cryptococcal meningitis. We welcome both solicited and unsolicited submissions that will contribute to this goal.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
