

## Special Issue

# Management of Dental Caries

### Message from the Guest Editor

Dental caries continue to affect a large part of the world's population at all ages of life, and dental caries management is a topical issue that has opened debates on the reform of cariology curricula in universities.

Caries risk assessment, advances in the diagnosis of lesions and the rate of progression of initial lesions are important elements to consider in its management and control. Clinicians must have more sensitive diagnostic procedures that allow monitoring the evolution of lesions in patients, and clinicians must recognize the most effective procedures that can be applied both in non-operative preventive treatments and in restorative operative treatments. The use of new biomaterials can improve the durability of restorations and reduce the removal of dental tissues. The scope of this Special Issue is to provide an overview of recent advances in the field of dental caries management. Researchers in this field are, therefore, encouraged to submit an original article or systematic review to this Special Issue (case reports and short reviews will not be accepted).

## About the Journal

### Message from the Editorial Board

*Journal of Clinical Medicine* (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
