

## Special Issue

# Disseminated Intravascular Coagulation: Current Understanding and Future Perspectives

### Message from the Guest Editor

Disseminated intravascular coagulation is characterized by systemic activation of blood coagulation, which results in the generation and deposition of fibrin, leading to microvascular thrombi in various organs and contributing to multiple organ dysfunction. Also, simultaneous neutrophil activation and endothelial injury associated with glycocalyx perturbation have been observed in these patients. Although there have been several recent advances in the pathophysiology of disseminated intravascular coagulation, the clinical significance of diagnoses and therapeutic interventions targeting disseminated intravascular coagulation is uncertain so far. Therefore, understanding the pathophysiology of disseminated intravascular coagulation and novel therapeutic strategies are vitally important issues for the management of critically ill settings. In this Special Issue of the *Journal of Clinical Medicine*, we will discuss the etiology, pathophysiology, clinical manifestations, diagnostic, and optimal management to treat critically ill patients with disseminated intravascular coagulation.

## About the Journal

### Message from the Editorial Board

*Journal of Clinical Medicine* (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
