

Special Issue

The State of the Art in Endodontics—Part II

Message from the Guest Editors

The applications of minimally invasive endodontics have been continuously expanding, enabling accurate diagnostic tests, conservative access cavities, conservative shaping with the latest generation of rotating files, powerful 3D irrigation systems, and more. In the past few months, we published the Special Issue "The State of the Art in Endodontics". The second installation of this Special Issue will focus on recently developed techniques and protocols in endodontics. Original articles, short communications, and review articles are all welcome.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
