

Special Issue

Going for Gaps in Glaucoma

Message from the Guest Editors

It is our great pleasure to invite you to contribute to the Special Issue “Going for Gaps in Glaucoma”. With this Special Issue, we envision collecting contributions that cover the unmet needs of current glaucoma management. In addition, we hope that leading glaucoma specialists and other specialists with an interest in glaucoma will send their contribution to this overall Special Issue that can bring new knowledge and put existing knowledge into perspective. Potential topics may include, but are not limited to, personalised medicine in glaucoma, virtual glaucoma clinics, AI and machine learning in glaucoma, the place for other health care providers in the management of glaucoma, and the future of treatment targets in glaucoma. We hope to receive many novel contributions to the Special Issue “Going for Gaps in Glaucoma”.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
