## Going for Gaps in Glaucoma

### Message from the Guest Editors

It is our great pleasure to invite you to contribute to the Special Issue “Going for Gaps in Glaucoma”. With this Special Issue, we envision collecting contributions that cover the unmet needs of current glaucoma management. In addition, we hope that leading glaucoma specialists and other specialists with an interest in glaucoma will send their contribution to this overall Special Issue that can bring new knowledge and put existing knowledge into perspective. Potential topics may include, but are not limited to, personalised medicine in glaucoma, virtual glaucoma clinics, AI and machine learning in glaucoma, the place for other health care providers in the management of glaucoma, and the future of treatment targets in glaucoma. We hope to receive many novel contributions to the Special Issue “Going for Gaps in Glaucoma”.
