The Role of Gut Microbiome in Health and Disease: A Clinical Update

Message from the Guest Editors

Emerging reports have shown the promising future of the gut microbiome for dysbiosis-related diseases in and beyond the gut. Dysbiosis-related diseases include acute infections, chronic inflammation, and chronic low-grade inflammation. The accumulated research findings have attracted great attention from physicians, concerning, for example, microbial diagnosis, fecal microbiota transplantation, transendoscopic enteral tubing, novel probiotics, and dietary requirements in children and adults. In this Special Issue, we welcome author submissions of papers regarding the innovations and advances in microbial diagnosis and treatment in clinical practice and translational research, including (but not limited to) fecal microbiota transplantation, the delivery of microbial treatments, any potential treatments targeting gut microbiota, and microbial-based diagnosis.

Guest Editors

Prof. Dr. Faming Zhang

1. Vice Dean, Institutes for Translational Medicine, Nanjing Medical University, Nanjing, China
2. Director, Intestinal Diseases Center at the Second Affiliated Hospital of Nanjing Medical University, Nanjing, China
3. Division of Microbiotherapy, Sir Run Run Hospital at Nanjing Medical University, Nanjing, China

Dr. Gianluca Ianiro

Dipartimento di Gastroenterologia, Università Cattolica del Sacro Cuore, Fondazione Policlinico Universitario A. Gemelli IRCCS, Largo A. Gemelli 8, 00168 Rome, Italy

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
