

## Special Issue

# Cardiovascular Multimodality Imaging in Heart Failure: Current Challenges and Future Directions

### Message from the Guest Editors

Heart failure (HF) has become of major concern to investigators, particularly those dealing with cardiovascular imaging. A multitude of studies have identified new modalities of assessment of cardiovascular function, either in patients with acute or chronic HF, in patients with reduced, mildly reduced or preserved left ventricular ejection fraction and in those with left-sided vs. right-sided HF. Within this field of research, the new frontiers of cardiovascular ultrasound, including stress echo, strain imaging and combined cardiopulmonary exercise test and exercise stress echocardiography, of cardiac magnetic resonance and of nuclear myocardial perfusion imaging, are making substantial contributions to a more comprehensive evaluation of cardiac function and remodeling in HF patients. We would like to take this opportunity to invite you to contribute to an upcoming Special Issue of the *Journal of Clinical Medicine* titled “**Cardiovascular Multimodality Imaging in Heart Failure: Current Challenges and Future Directions**”. We are looking forward to receiving your submission.

### Guest Editors

Dr. Frank Lloyd Dini

Centro Medico Sant'Agostino - Milano -Research Fellow at the Department of Public Health and Clinical Medicine at Umea University, Umea, Italy

Dr. Verena Veulemans

Department of Cardiology, Pulmonology, and Angiology, University Hospital, Düsseldorf, Germany

### Deadline for manuscript submissions

closed (15 December 2021)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
