Image Guided Interventions and Emerging Technologies

Message from the Guest Editor

There has been significant growth in advanced image guided interventions over the past decade. From the development of new procedures and techniques to new devices, interventional radiology (IR) is continuing to have a major impact in clinical medicine. IR is at the forefront of oncologic, gastrointestinal and vascular interventions, including drug delivery where IR catheters could be placed virtually anywhere under real-time guidance for a more efficient delivery of therapeutics. Here, we would like to review some of the past and present advancements in IR and end with emerging technologies in minimally invasive endovascular and percutaneous approaches to disease including recent discoveries in bioengineering. , MD, PhD, FSIR

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
