Current Management of Adrenal Tumors

Message from the Guest Editors

Adrenal benign and malignant tumors are characterized by complex issues for diagnostic and therapeutic approaches and, for this reason, are usually managed in referral centers where expertise and large volume of patients guarantee good clinical results.

An improvement in the diagnostic process requires that radiologists, endocrinologists, and pathologists have specific knowledge of the features of the different clinical conditions associated with an adrenal tumor in order to guide them toward making the correct therapeutic decision based on multidisciplinary considerations.

In the last few decades, a significant evolution in surgery has been witnessed in terms of the management of adrenal tumors, starting from classical open access, passing through the laparoscopic and retroperitoneoscopic approaches, and ending with the robotic procedures.

Considering the recognized international interest in adrenal benign and malignant tumors, this Special Issue aims to present the most recent work and analyses in terms of their diagnosis and therapy, thus offering readers an important update on this topic.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France
