Recent Advances in Understanding and Managing Urolithiasis

Message from the Guest Editor

Stone surgery is one of the most innovative fields in urology. In recent years, we have witnessed the emergence of many new technologies, as well as new devices, each more promising than the last.

Nevertheless, stone disease is still one of the most frequent pathologies in urology and many studies, with their subsequent advances, are still currently awaited. This Special Issue aims to provide our readers with some of the hottest topic reviews in the field of stone devices, as well as high-quality clinical research. We also want to provide some experimental and basic science research in the field of laser surgery for stone disease. We hope that this Special Issue will give you the most up-to-date overview of recent advances in urolithiasis as well as high-quality studies that will become the benchmark for the coming years.

Guest Editor

Dr. Benjamin Pradere

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
