

## Special Issue

# New Perspectives in Maxillo-Facial Surgery

### Message from the Guest Editor

Maxillofacial surgery has always been a challenging surgical discipline due to its unique field of application. Treating a person's face requires special skills to maintain/improve complex vital functions. At the same time, the surgeon is expected to protect/improve facial appearance and to reduce post-surgical sequelae, such as scarring. Luckily, our specialty has experienced extraordinary changes and improvements in the last few years: new technologies have given us the opportunity to greatly increase our options in terms of the available final treatment outcomes for our patients in a predictable manner and with a significant reduction in terms of morbidity, invasivity, and recovery time. For this reason, at present, all these tools represent a common part of our daily practice. The aim of this Special Issue is to emphasize all these improvements through the publication of papers coming from eminent authors who can support all the aforementioned issues with solid scientific evidence. Basic research papers, clinical papers, as well as reviews are all highly encouraged for submission if focused on present and future perspectives of maxillofacial surgery.

### Guest Editor

Prof. Lorenzo Trevisiol

Department of Surgery, Dentistry, Pediatrics and Gynecology, University of Verona, Verona, Italy

### Deadline for manuscript submissions

closed (10 October 2021)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
