

Special Issue

New Proactive Approaches and Precision Medicine in Crohn's Disease

Message from the Guest Editor

In recent years, huge progress has been made in both the diagnosis and monitoring of Crohn's disease. Non-invasive, patient-friendly, and remote monitoring techniques such as capsule endoscopy, intestinal ultrasound, and home-based fecal calprotectin are gaining increased acceptance, replacing more traditional and invasive monitoring techniques. The ongoing COVID-19 pandemic has caused significant restrictions on patient mobility and enhanced the need for friendly remote monitoring and telemedicine. Novel therapies with more ambitious treatment goals, such as transmural healing and histological healing, are being evaluated in clinical trials and observational studies. Proactive treatment strategies and personalized monitoring approaches are also being increasingly evaluated.

The current Special Issue will focus on personalized medicine in CD, including but not limited to novel biomarkers, remote monitoring of disease activity, novel drug combinations, predictors of response to treatment and disease course and therapeutic targets.

About the Journal

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
