Special Issue

Molecular Epidemiology in Hepatitis C Virus (HCV) Infection: Studies of Viral and Human Genomes

Message from the Guest Editors

Hepatitis C virus (HCV) is a major health problem, causing chronic hepatitis C to 71 million people, who are at risk for serious liver diseases. The recently used direct-acting antivirals (DAAs) eliminate HCV infection in more than 95% of patients, raising the possibility of controlling, and even eradicating, HCV infection. For this Special Issue, we invite you to submit studies focused on the HCV molecular epidemiology, from the virus and host perspectives, that can help to manage HCV infection in the DAAs era.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine*'s (*JCM*) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000 Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
