

## Special Issue

# Diagnosis and Treatment of Myocardial Infarction

### Message from the Guest Editors

The diagnosis and treatment of acute coronary syndromes (ACS) has evolved enormously. This had led to a dramatic reduction in mortality and recurrent cardiovascular events in all subtypes of ACS. Though, there remains a substantial acute, chronic risk of mortality and major cardiovascular events following an ACS. The acute mortality risk is high in those presenting with cardiogenic shock or after resuscitation. With improvements in early survival after an ACS, the rate of adverse outcomes in the longer term remains persistently high. The introduction of more sensitive cardiac troponin assays has revolutionized early diagnosis and risk stratification of patients with a suspected ACS. However, it has also led to an increased recognition of myocardial injury in acute illnesses other than ACS. Altogether, there remains an unmet clinical need for further improvements in the diagnosis and subsequent management of ACS patients. The Special Issue aims to deepen the latest evidence in the field of ACS. Welcome the review articles and original research papers dealing with the topics of diagnostic and therapeutic advances in patients with ACS.

## About the Journal

### Message from the Editorial Board

*Journal of Clinical Medicine* (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
