

## Special Issue

# Neuroendocrine Tumors: Etiology, Diagnosis, and Therapy

### Message from the Guest Editors

Neuroendocrine neoplasms (NENs) are rare and heterogeneous tumors whose incidence has increased in recent years due to better disease knowledge and improvements in diagnostic tools, particularly endoscopy and nuclear medicine.

Novel research strategies are needed to better define diagnostic and therapeutic algorithms, particularly for some specific subgroup of poorly known tumors, including duodenal NENs and functioning tumors. The cooperation between referral centers and the creation of international disease registries should be encouraged to better understand the biology and the natural history of these neoplasms and to consequently improve their management.

The focus of this Special Issue is to consider the following research aspects of NENs: 1) epidemiology and risk factors to define specific subgroups of patients characterized by dismal prognosis; 2) genomic characterization; 3) innovations in multidisciplinary management in both diagnosis and treatment, including surgery (resection and liver transplant), loco-regional treatments, and medical therapy in adjuvant, neoadjuvant and metastatic settings.

### Guest Editors

**Dr. Roberta Elisa Rossi**

Gastroenterology and Endoscopy Unit, Humanitas Clinical and Research Center IRCCS, Rozzano, Milan, Italy

**Dr. Sara Massironi**

Division of Gastroenterology, San Gerardo Hospital, University of Milano-Bicocca School of Medicine, 20900 Monza, Italy

### Deadline for manuscript submissions

closed (15 September 2023)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
