Personalized Therapy in Non-Small Cell Lung Cancer: The Role of Biological Agents and Immunotherapy

Message from the Guest Editor

It is no longer acceptable to lump lung cancer into either small cell or non-small cell groups. With the advent of targeted therapy for cancers with mutations or rearrangements, and the increasing role for immunotherapy, there is an increasing need for precise pathology assessment and individualized therapy. This is an exciting time in lung cancer care, but these developments also require clinicians involved in lung cancer to be up to date with all new developments. Hopefully this Special Issue will assist clinicians in being aware of state-of-the-art lung cancer care. Prof. David J. Barnes

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
