

## Special Issue

# Orthopedic Surgery in Elderly Patients: Past, Present, and Future

### Message from the Guest Editor

In orthopedic surgery, the elderly patient represents a great challenge for the surgeon in an operating room. In addition to complications related to various factors, such as patient age, general health status, poor bone quality, sarcopenia, and decreased mobility, the number of older patients is steadily increasing. The medical comorbidities and perioperative risks in elderly patients become more complex and challenging in orthopedic co-management. Nevertheless, total hip and knee joint replacement is one of the most successful surgical procedures in the field of orthopedic surgery. The number of joint replacements is increasing year by year; however, the problem of increasing numbers of revision surgeries due to implant loosening, periprosthetic fractures or infections, and implant-related failures (e.g., wear) remains a great challenge for the surgeon and the orthogeriatric team. On this account, we are very pleased to announce a Special Issue of the *Journal of Clinical Medicine* entitled “Orthopedic Surgery in Elderly Patients: Past, Present, and Future”.

### Guest Editor

Dr. Dietmar Dammerer

Department for Orthopaedics and Traumatology, University Hospital Krems, 3500 Krems, Austria

### Deadline for manuscript submissions

closed (16 December 2022)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
