

## Special Issue

# Clinical Advances in Osseointegrated Oral Implants

### Message from the Guest Editors

The constantly evolving field of dental implantology is being scientifically investigated, employing a wide variety of approaches. The aim of this Special Issue is to provide a broad representation of cutting-edge research results at the highest scientific level, and, thus, to provide comprehensive knowledge about the latest state of the art. For this purpose, we are searching for the latest results of clinical studies on various topics, including, but not limited to, the following:

osseointegration, healing strategies, new diagnostic and treatment concepts, as well as minimally invasive procedures. Innovative treatment concepts can be based on material aspects, variations in superstructures and fixation types on the one hand, but also on lean and/or digital workflows. The questions of how successful implant treatment can be further improved, and which possibilities of prevention arise to protect individuals against implant loss shall be addressed, as well as how successful therapy of peri-implant inflammation may look in the future, based on the current state of science. Join us in describing and charting the path to the future of modern implant dentistry.

### Guest Editors

Prof. Dr. Ralph Gunnar Luthardt

Department of Prosthetic Dentistry, Center of Dentistry, Ulm University,  
Albert-Einstein-Allee 11, 89081 Ulm, Germany

Dr. Heike Rudolph

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
