

## Special Issue

# Recent Advances in Otitis Media and Cholesteatoma

### Message from the Guest Editor

Otitis media describes a diverse spectrum of pathologic conditions that result in inflammation of the middle ear and mastoid cavity. While a bacterial or viral infection and/or eustachian tube dysfunction are traditional key factors in otitis media, more complicated pathophysiological conditions seem to be involved in middle ear cholesteatoma and some newly characterized otitis media. Surgery is still the only therapeutic measure in cholesteatoma, usually involving a mastoidectomy and tympanoplasty to repair the tympanic membrane and the ossicles to improve hearing. Recently, auditory implants are becoming new treatment options for hearing rehabilitation after extensive cholesteatoma surgery in patients where conventional middle ear reconstruction is ineffective or impossible. In this Special Issue, we are inviting original or review articles covering the cellular biology, bacteriology, epidemiology, genetic advances, middle ear mechanics/physiology, temporal bone pathology, imaging technologies, tympanomastoid surgery and hearing rehabilitation in the context of otitis media and cholesteatoma.

### Guest Editor

Prof. Dr. Tetsuya Tono

Department of Otolaryngology-Head and Neck Surgery, University of Miyazaki, Miyazaki, Japan

### Deadline for manuscript submissions

closed (31 December 2023)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
