

## Special Issue

# Recent Advances and Clinical Outcomes of Kidney Transplantation

### Message from the Guest Editors

Advances in immunosuppression and kidney transplant techniques have led to significant improvements in the short-term survival of the renal allograft. Long-term graft survival, however, has relatively lagged behind and has now become one of the main problems in kidney transplantation. In this Special Issue, we are making a call to action to stimulate researchers and clinicians to submit their invaluable studies on kidney transplantation, including works on issues related to donors, allograft, and patient survival following transplantation that will provide additional knowledge and skills in the field of transplantation research, ultimately to improve outcomes after kidney transplantation. Original investigations, review articles, and short communications are especially welcome. Potential topics include, but are not limited to, the following: ABO-Incompatible Kidney Transplant Outcomes

Advances in Renal Transplant Immunosuppression  
Advances in Kidney Procurement and Transplantation  
Antibody-Mediated Rejection: New Approaches to Prevention and Management  
APOL1 Genotype and Kidney Transplantation Outcomes  
...

## About the Journal

### Message from the Editorial Board

*Journal of Clinical Medicine* (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2026).
