

## Special Issue

# Clinical Advances in Head and Neck Plastic, Reconstructive and Aesthetic Surgery

### Message from the Guest Editors

Head and neck reconstructive surgery represents a difficult challenge. Tumors, trauma, or other pathologies that cause mutilation of facial structures, even if small in size, can cause a significant reduction in the quality of life of patients. For this reason, reconstructive, plastic, and aesthetic surgery of the face is a discipline in continuous evolution. The purpose of this Special Issue is to collect articles focusing on recent advancements in both aesthetic and reconstructive surgery as well as treatment approaches trying to improve aesthetic and functional outcomes after reconstruction. A special section will be reserved for reconstructions of the oral cavity and oropharynx with particular attention to evaluating the functional outcomes of the surgical techniques.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
