Retinal Disorders: Clinical Updates and Perspectives

Message from the Guest Editors

Dear colleagues, In the last decade, advances in retinal imaging and options of effective treatment have remarkably improved the diagnosis, management and treatment of vitreoretinal diseases. The advent of non-invasive high-resolution imaging techniques, especially optical coherence tomography, has made it possible to study in detail a broad spectrum of retinal conditions, including age-related macular degeneration, diabetic retinopathy, retinal vein occlusions, vitreomacular interface disorders (i.e., macular holes, epiretinal membranes, etc.), retinal detachment, posterior uveitis and inherited retinal dystrophies. At the same time, the widespread use of treatments such as intravitreal injections and minimally invasive vitreoretinal surgery has revolutionized the entire world of the retina. The present Special Issue welcomes original contributions and reviews on any aspects of the diagnosis and treatment of retinal conditions.

Guest Editors

Dr. Andrea Govetto

Oftalmico Hospital, ASST Fatebenefratelli Sacco, Milan, Italy

Dr. Giuseppe Casalino

Eye Clinic, Fondazione IRCCS Ca' Granda Ospedale Maggiore Policlinico, Milan, Italy

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
