

## Special Issue

# Novel Research in Sexuality and Mental Health—Volume II

### Message from the Guest Editor

Our goal now is to address a second part of the Special Issue Novel Research in Sexuality and Mental Health. We consider that research in sexuality is highly relevant for supporting the advances of clinical practice, so our main interest is to collaborate in its production and dissemination. Numerous topics remain to be investigated, including biological, social, intercultural and gender aspects. All aspects related to human sexuality will be welcomed, although mainly new knowledge about sexual diversity, the gender perspective, and the evolution of the ancient sexuality to new models such as the influence of the internet or new sex apps that undoubtedly modify the access and meaning of contemporary sexual relationships. We are facing challenges never experienced before that undoubtedly require scientific and conscientious research to obtain a better understanding of both the old and new sexuality.

### Guest Editor

Prof. Dr. Angel L. Montejo

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
