

Special Issue

Innovative Therapies in Neuromuscular Diseases

Message from the Guest Editors

This Special Issue, "Innovative Therapies in Neuromuscular Diseases", will focus on recent advances that have recently been made in developing novel approaches to treat neuromuscular disorders (NMDs). NMDs comprise a large and heterogeneous group of diseases affecting skeletal muscles, motor nerves, or neuromuscular junctions. No curative treatments have yet been found for any NMDs, but progress in translational research has now opened new possibilities for therapeutic interventions which are resulting in the development of new drugs that are currently under investigation, and novel clinical trials (i.e., PTC and eteplirsen for Duchenne muscular dystrophy; nusinersen for spinal muscular atrophy). The majority of these new therapeutic options are based on the concept of personalized medicine, implying that the genetic diagnosis is compulsory for NMD patients in order to make them eligible for drug or clinical trial enrollment. We intend to invite authors with expertise in the field of NMDs to contribute review papers which focus on novel therapies that are currently ongoing for NMDs.

Guest Editors

Prof. Dr. Alessandra Ferlini

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
