Update in the Management of Myasthenia Gravis

Message from the Guest Editor

Myasthenia gravis is the most frequent neuromuscular junction disorder. There has been progress in the understanding of the pathophysiology, diagnosis, and treatment of this condition. The ongoing progress of treatments for myasthenia gravis has improved the prognosis and quality of life of patients. However, despite these new treatments, there are still between 10 and 15% of patients who are refractory to current therapies, which forces us to continue to improve the pharmacological and non-pharmacological management of the disease with an approach that includes all the professionals involved. The *Journal of Clinical Medicine* is planning a Special Issue titled “Advances in the Management of Myasthenia Gravis”. It is our great privilege to invite you to contribute to this Special Issue. We are interested in clinical and epidemiological studies and systematic reviews with a focus on the management of myasthenia gravis.

Guest Editor

Prof. Dr. Carlos Casasnovas

1. Neuromuscular unit, Department of Neurology, Hospital Universitari de Bellvitge, Barcelona, Spain
2. Neurometabolic Diseases Group, Bellvitge Biomedical Research Institute (IDIBELL) and CIBERER, Barcelona, Spain

Deadline for manuscript submissions

closed (15 September 2022)

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
