

Special Issue

Microservices and Security

Message from the Guest Editors

This Special Issue is addressed to all researchers and practitioners at the intersection of microservices and security, including but not limited to the following: DevOps teams proposing new tools and approaches to automating secure development and deployment, architects studying the emerging security features of orchestration models, security researchers devising methodologies for threat modeling and mitigation, privacy experts dealing with data management in distributed environments, etc. Keywords

- DevOps
- Microservices
- DevSecOps/SecDevOps
- Secure development
- Security by design
- Microservices security
- Threat modeling
- Data provenance
- Orchestration

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Danda B. Rawat

Department of Electrical Engineering and Computer Science, Howard
University, Washington, DC 20059, USA

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, EBSCO,
and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 24.4 days after
submission; acceptance to publication is undertaken in 4.6
days (median values for papers published in this journal in
the first half of 2025).

Journal Rank:

CiteScore - Q1 (Computer Science (miscellaneous))
