Special Issue

Hardware Oriented Security and Trust (HOST)

Message from the Guest Editors

Topics of interest in this Special Issue include but are not limited to:

- Supply chain risk mitigation, including counterfeit detection and avoidance;
- Hardware trojan attacks, detection techniques, and countermeasures;
- Hardware-based security primitives;
- Side-channel attacks and protection;
- Hardware IP trust (watermarking, metering, trust verification);
- Trusted manufacturing;
- Reverse engineering and hardware obfuscation;
- Hardware tampering attacks and protection;
- Physical security attacks and countermeasures;
- Metrics, policies, and standards related to hardware security;
- Hardware-based software system security;
- Security of Internet of Things.

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Danda B. Rawat
Department of Electrical Engineering and Computer Science, Howard
University, Washington, DC 20059, USA

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, EBSCO,
and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 24.4 days after
submission; acceptance to publication is undertaken in 4.6
days (median values for papers published in this journal in
the first half of 2025).

Journal Rank:

CiteScore - Q1 (Computer Science (miscellaneous))
