Message from the Guest Editors

The 2019 International Conference on Materials and Nanomaterials (MNs-19) is organized by academics and researchers belonging to different scientific areas of the Universidad Carlos III de Madrid, the Universidad Complutense de Madrid, the Universidad de Extremadura and the Universidad de Las Palmas de Gran Canaria with the technical support of Sciknowledge European Conferences. The event has the objective of creating an international forum for academics, researchers and scientists from worldwide to discuss results and proposals regarding to the soundest issues related to Materials and Nanomaterials. In this connection, papers presented in this Conference in the topic of Composite and Nanocomposite Materials can be further considered for publication in *Journal of Composite Sciences*. We encourage contributions on significant and original works of composite and nanocomposite materials. The Special Issue will cover the following main topics, but not limited to:

- Advanced Composites Manufacturing
- Composite Materials and Nanocomposites
- Composites Applications
- Composites Degradation and Stability
- Composites Structure
- Graphene Based Composites
