

Special Issue

Selected Papers from International Conference on Materials Science and Engineering, March 27–28, 2023, Paris

Message from the Guest Editor

The Special Issue will collect papers on the science and engineering of composite materials presented at the International Conference on Materials Science and Engineering, March 27–28, 2023, Paris. The papers should present latest research and developments focusing on properties, testing methods, modelling, design and applications of composite materials. Topics of interests include but are not limited to the following:

- Experimental characterization and non-destructive evaluation
- Modelling and simulation
- Manufacturing and processing
- Nanocomposites
- Multifunctional composites
- 3D printed composites
- Sustainable materials and biocomposites
- Recycling
