

## Special Issue

# Selected Papers from International Conference on Materials Science & Engineering 2023

### Message from the Guest Editors

8th International Conference on Materials Science & Engineering (Scopus & PubMed Indexed), which will held on: September 21-22 2023 in Paris is important event in this main stream. Special issue is the collection of selected papers from 8th International Conference on Materials Science & Engineering . The paper will be selected after peer-reviews. The articles will be devoted to all topics of the conference, which are listed as the conference topics in computational and material science – namely: structural, functional, semiconductors, metal, electronic, optical, magnetic, polymer and biopolymers, biomaterials, ceramics, etal. Very important part of material science are material physics and chemistry, surface science and papers in those research areas are very welcome. Also, most advanced topics in engineering like biomedical, chemical, mechanical and civil engineering, nanotechnology and nanoengineering and its application, surface engineering, energy related engineering, mechatronics and robotics, biomechanics, 3D printing and additive manufacturing, nanomedicine will be very important part of the special issue.
